

Daily Life through History features an unparalleled depth of scholarly material from full-length encyclopedia articles to chapter-long discussions from the critically acclaimed *Daily Life through History* series. The database has been designed to be easy to use by students and researchers.

Daily Life through History

QUERYING THE DATABASE. Users can access the database by Quick Search, Advanced Search, and Browsing. The database is organized by Time Period, Region, and Topic for easy navigation.

1. Searching: In addition to “Quick Search,” users are able to refine their searches by using the Advanced Search features: Keyword, Boolean, Subject, Region, and Time. Boolean operators — AND, OR, NOT — are supported for all searches. Also available are:

- adjacency (ADJ7)
- near (NEAR7)
- frequency (>5)
- operator priority (parentheses), single character wildcard (?)
- multiple character wildcard (*)
- choice ([])

ADVANCED SEARCH SCREEN

Search Results are ordered according to the type of resource: Encyclopedia Articles, Book Chapters, Primary Documents, and Images. Sorting options include:

- Subject
- Region
- Time
- Number of Terms found.

2. Browsing: Users can easily browse more than 10,000 book pages and 4,000,000 words by:

- Time Period
- Region
- Topic.

BROWSE SCREEN

RELATED RESOURCES. Encyclopedia articles and chapter-length discussion content pages are enhanced with context-specific related resources: Chronologies, Images, Maps, vetted academic and cultural Web sites, and "Tours through Time" which are short thumbnail essays — either visual or with primary texts — that glance at topics across time and cultures.
